AZALEA INDICA.

TO GROWERS OF

Forcing Bulbs, Azaleas, and Other Imported Stock.

We intend to make it convenient, satisfactory and profitable to buy your bulbs at home and through us.

THIS IS HOW

We will make you **first early** shipment of all kinds of forcing bulbs which are required for Thanksgiving and Holiday forcing. By doing this, you save about two weeks of important time over general orders placed in France or Holland.

We ship no plants or bulbs in original cases without inspection at New York or Chicago.

Price is a secondary consideration in making our foreign orders. We have long since learned that **cheap bulbs** are often the dearest in the end.

Stock bought of us will be A No. 1 Bulbs on delivery, and if not satisfactory then in every way may be returned or exchanged.

We invite the most critical inspection, and customers are not expected to keep or use any that are not as represented herewith.

We Ship From Chicago or New York.

If any of the bulbs or cases of bulbs prove inferior on arrival we can replace them with satisfactory stock within five days, at original prices. Rejected stock from Europe cannot be replaced under six weeks, or must be re-purchased here at advanced prices and a delay in planting.

It is undoubtedly an advantage to place all responsibility for your import stock upon one firm. By combining your entire order with us we accept responsibility for delivery of all the stock at the right time, and of the best grades that can be furnished.

Beginners in the use of forcing bulbs or other forcing dormant imported stock (or any other plants we sell), are invited to ask us for special growing instructions on any kinds they are not familiar with. We can supply the same from the best sources.

Our Rule, "All Florists' Stock in Season."

WE DO NOT WARRANT.

While we always aim to have the best Seeds and Bulbs, Roots and like stock from the most reliable growers, we give no warranty expressed or implied, nor do we guarantee the Seeds, Bulbs or Plants supplied by us, nor will we be in any way responsible for the crop either as to varieties or product, nor do we guarantee the successful flowering of any Bulbs or Plants neither do we guarantee that same will be free from disease. If not accepted on these terms these goods must be returned at once and any money paid for same will be refunded. J. C. V.

Vaughan's XXX Double Nose TRUE DUTCH

 **Double Von Sion**

Narcissus. 

"Fancy" cut blooms of high grade flowers sell out while common stock goes to the dump barrel or sells at half price. Our XXX Mammoth Double Nose will produce the "Fancy" kind and will usually sell in the market at fancy prices when "regular" stock will not bring the original cost of bulbs. Our supply of these is especially grown by one of the best Daffodil firms in Holland and can be depended upon. Particularly recommended for growing in pans as illustrated in cut opposite.

LOWEST

COST

At this writing the prices of French growers and dealers are uniform; therefore, the question for the American jobber and planter as well is, where to obtain the highest, best graded stock, bright, sound and free from gummed, discolored, ill shaped, or diseased Bulbs.

We know by years of experience reliable sources and have secured such stock, paying full prices. We shall quote such Bulbs only. Look out for quality if prices are cut. So far there is no reduction in prices in France but there is much difference in qualities.

VAUGHAN'S "LONDON MARKET" BRAND.

LILY OF THE VALLEY.

We offer the three highest grades of Lily of the Valley Pips which the Hamburg district produces. Our "London Market" brand is the same select pip as is forced for Christmas sales by the London Growers. It is the finest selection made, producing often 10 to 12 bells and well worth the price asked for it. That "Cheap Valley" is always dear has been proven by every experienced grower. For medium and late forcing our "Premium" brand will satisfy every one. We shall deliver this stock as early as the same can be secured from the growers after maturity. Pips will be of the best quality which the season affords, carefully grown, as well as ripened and of full size. Such as with proper handling ought to give most satisfactory results. We pay our growers more than the market price to be sure of picked stock.

WE ARE EXCLUSIVE OWNERS OF THE FOLLOWING BRANDS:

"LONDON MARKET" BRAND.

The best Pip for Christmas Forcing.

We introduced this Select Christmas Forcing pip to the American trade under the brand "London Market" and they have given such good satisfaction that some of our envious competitors have seen fit to sell inferior stock under this name and brand. There is but one "London Market" quality and we control the selected pips of the entire crop, which is limited.

NEW IMPORTATION ARRIVES FROM JAPAN ABOUT DECEMBER.

This beautiful novelty is an importation from Japan and is certainly the finest addition to the Fernery yet introduced. The Ball is composed of the Japanese Island Fern Roots and Sphagnum Moss, and so constructed as to send out leaves of beautiful emerald green from every point. They grow rapidly, and make a handsome ornament for the home, conservatory or greenhouse.

DIRECTIONS FOR STARTING.—Place ball in water for 15 minutes and then suspend in any desired position; repeat every two days until growth is started, after which sprinkle occasionally as required. To use in fern dish, cut ball in halves, placing flat side down, thus getting two dishes of beautiful ferns. The Fern Ball may be allowed to dry up at any time and be set away, and started again by watering as before.

NOTE We have a small supply of 5-inch Balls for immediate delivery and which we can offer at 40c. each, \$4.00 per doz.—Order at once.

SINGLE EARLY TULIPS.

The bulbs offered below are produced by a specialist in Holland and are all guaranteed strictly first size. Please do not compare them with the 2nd and 3rd size bulbs sometimes offered at low prices. If such stock is wanted we will import same especially for growers who desire it and on this class of bulbs we are in position to meet all competition. We do not, however, advocate for forcing the use of any but the best bulbs obtainable.

Vaughan's "New Pink" Single Large-Flowering. Beautiful Rose Shaded White.

This magnificent new Tulip is unsurpassed by any other variety of its color. As a cut-flower or as a pot Plant for Easter sales there is no single tulip that can compare with it.

BICOLOR HORSFIELDII.

NARCISSUS

Paper White Grandiflora.

It is a well known fact that of late years this Narcissus has shown a tendency to come blind and especially so when grown from small bulbs.

In placing our contracts with French growers we are careful to secure the largest bulbs that are obtainable and the grade of these which we offer under the name of "Star" brand is the choicest stock to be had in France, and we are only able to obtain each year a limited number of them. Our experience has been that they are well worth the difference in price over the smaller grades. However, the quality which we offer under the heading of "Fancy" is a selected grade from the regular stock. As stated before, our supply of Giant Flowered is limited, and early orders are necessary to secure them.

ALBA PLENA ODORATA.

FRENCH DOUBLE VON SION.

"PARIS BRAND."

A Narcissus specialist in France has been breeding up for several years past a pure strain of Narcissus Von Sion, and owing to the careful cultivation given them they produce blooms almost as large as the Dutch Von Sion. These cultivated French grown Von Sion have been forced by a few large eastern florists the past two years and have given good results. Under proper treatment they can be bloomed for Christmas. We consider them worthy of a trial.

These cultivated Von Sion are not to be confounded with the wild Von Sion offered by French growers and sold at low figures.

Price, per 100, \$1.50; per 1000, \$13.00.

CULTURAL DIRECTIONS.

NARCISSUS, French Grown **VON SION** for forcing for Christmas flowers, we would advise placing the bulbs as soon as received, in August or September, in flats outside or in cold frames. They can be brought into the house for forcing about November 15th or as late as December 1st. When brought in the flower stalks should show from 3 to 5 inches in the flats. These bulbs when so started will stand damp heat which is contrary to the habit of Dutch Von Sion."

IMPORTANT.

Japan Lilium Longiflorum have proved a most desirable substitute for Lilium Harrisii for late or Easter flowering because of their comparative freedom from disease, as well as being unmixed with the latter variety. While they are later blooming than Harrisii, Florists should experience no trouble to bring them into flower in good time for Easter.

We are reliably informed that large quantities of Japan Lilium Longiflorum are planted this year in the Low Swampy Rice Fields of Japan and are being offered by unscrupulous dealers below cost of producing stock grown on dry and suitable land for maturing sound and healthy bulbs. Growers cannot afford to experiment with Lily bulbs of doubtful quality.

As is well-known Japan Lilium Longiflorum usually show several different types. Our Japan growers, however, have had for the past few seasons under separate cultivation two distinct types of this plant, both of which are tall growing, free blooming and with narrow leaved foliage. One of them, "EARLY MULTIFLORUM" coming into flower early and which is desirable for Easter, the other "GIGANTEUM" being a late flowering sort, and recommended for Decoration Day blooming. In booking orders for these new varieties we can give no guarantee as to their being true to name since this is the first year we have bought these separate. Our Japanese nurserymen assure us, however, they should run 90% true, further, as it is impossible to know as to how many marketable bulbs can be harvested for the coming season. We book orders subject to making prorata delivery, and in the event of shortage fill balance of order with regular Japan Longiflorum at their price, unless customers advises to the contrary.

The old-fashioned white Lily and which is again coming into favor for cut-flowers being planted largely out of doors for summer blooming. **Per 100, \$4.50; per 1000, \$40.00.**

Lilium Candidum. "Thick Petaled."

It is known to most growers of this Lily that there are two strains. The flowers of each show in substance a marked difference. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true "THICK PETELED" bulbs, and they have given our customers excellent satisfaction. We offer it as the best and most substantial type of Lilium Candidum.

GRAND NEW CARNATION

MRS. E. A. NELSON.

Briefly stated, the "Mrs. E. A. Nelson" possesses the following meritorious points:

SIZE—The average bloom, under ordinary culture, **exceeds three inches in diameter**. When disbudded it **reaches 3½ and 4 inches**.

COLOR—A pure, **glistening pink**, similar to that of Joost, showing equally well in day time and under artificial light.

CALYX—Strong and absolutely nonbursting.

STEM—**2 to 2½ feet**, strong and **erect**, sustaining the largest blooms. No other carnation surpasses it in this respect.

BLOOMING QUALITIES—Although a "fancy" of the highest order, it is withal an **early, profuse and continuous** bloomer. Scott, in its palmy days, never surpassed the "E. A. Nelson" as to continuity and quantity of blooms.

HABIT OF GROWTH—Just what the grower admires in a carnation. **Strong, clean and vigorous**, plants making no idle grass, but every shoot a flower producer. It lifts easily and suffers no setback under the most discouraging conditions, which is but another proof of its health and vigor.

KEEPING QUALITIES—As good as the best, blooms shipped from Indianapolis to Boston arriving at their destination in splendid condition. This fact is worthy of note because of the distance between the two points, necessitating three transfers.

RECORD—Scored **94 points** in Boston and **91½** in Cincinnati on March 9th.

The "Mrs. E. A. Nelson" will be ready for distribution February 1st, 1902. Orders will be filled strictly in rotation on the principle, "First come, first served."

New Abyssian Primrose.

(Primula Verticillata Grandiflora.)

The flowers of this variety are large, of a delightful light color and are borne on whorls, 3 to 4 to a stem. It is one of the best sorts for the house, being in bloom a long time. Pkt. (300 seeds), 25c.

Primula Forbei.—"Baby Primrose." flowers rosy lilac, free blooming, excellent for pots. The seedlings begin to bloom 3 months after sowing. 500 seeds, 25c.

Vaughan's International Primula Mixture.

This mixture is composed of the most salable colors of Single Flowering Chinese Primulas, the best whites, pinks and reds, with a sprinkling of other colors, enough to give a large variety of colors, the most important shades predominating. It contains some of the Giant sorts, some Fernleaved, some blue; also some with dark leaves and stems. We have taken special pains to make this mixture as complete as possible, and unreservedly recommend it to everyone.

Hybrida Grandiflora Nana, best mixed, dwarf.....25c.

Hybrida Plenissima, extra choice double.....50c.

Hybrida Grandiflora "Stella".....50c.

A new and novel strain, produces flowers of large size, measuring up to four inches, and differs from other sorts, in having twisted or fluted petals; in fact, the flowers are very similar to that of the single Cactus Dahlia.

Vaughan's Giant-Flowered Cyclamen.

Our seed has been grown for use by a Cyclamen specialist in Europe. This is the third season we are handling his entire crop. The seed is saved only from perfect plants. Shape and size of flowers, foliage and stems and general habit are points on which our seed plants are selected. There is no better Cyclamen seed in the market.
